

1 (April 1, 2002)
2 Barrier delineators shall be placed on the top of the barrier. Spacing shall be as
3 shown in the plans. Delineator color shall be white on the right of traffic and yellow
4 on the left of traffic. The surface of the barrier where the delineator is applied shall
5 be free of dirt, curing compound, moisture, paint, or any other material that would
6 adversely affect the bond of the adhesive. Install delineators with an adhesive
7 recommended by the manufacturer.
